(correspondence)

7 April 1966

Mr. Robert W. Olson  
Vice President  
Texas Instruments, Inc.  
13500 North Central Expressway  
Dallas, Texas

Dear Bob:

Thank you very much for your thoughtfulness and courtesies during our recent visit. Both Dr. Wheelon and General Ledford were very much impressed and regretted that there was not more time for inspection of your facilities and technical discussion. Please pass our thanks to Pat and all of the others who assisted to make the visit so profitable. I can assure you that a very fine impression was made.

STATINTL

George C. Miller  
Director of ELINT
